Urban Transformation and Community Engaged Leadership is a professional development experience for undergraduate students interested in attaining leadership roles in their perspective disciplines. Uniquely designed, the curriculum prepares participants to be inclusive team leaders, social change agents and active global citizens. As a transformative learning experience, each lesson challenges participants to critically examine urban spaces, leadership theory, and best practices.

Through a series of class discussions, readings and digital lectures students will be introduced to a variety of social change theories and practices. Course content will include, but not be limited to, an examination and application of the Relational Leadership Model, the Social Change Model of Leadership and the Iceberg Theory of organizational change.

Please note that upon completion of this course, students will be eligible to apply to participate in one of the three International Leadership Exchanges facilitated in Africa, the Caribbean, Central America or India.
